Dear Professor Chen,

It is my pleasure to invite you and your delegation to visit the Clean Energy Research Centre at the University of British Columbia between September and October in 2019, depending on your schedule and planning of your trip. During your visit, we would discuss the potential collaboration in academic research, faculty & student exchange and other topics in areas related to materials engineering and clean energy which are of mutual interests to us.

The invitation is extended to your colleagues in the delegation as listed below:

Prof. Jingxian Liu, Dean of School of Navigation, WUT
